DETAILED ACTION

Claims 1,2,4, 5, 6 and 7 are pending.

Claims 3, 8-20 have been cancelled.

Applicants compounds still include compounds outside the scope of the elected group.

Group I has R to be an alkyl chain. However several compounds with the phenyl group are included.

The rejection of claims 1-7 under 35 USC 112 second para has been withdrawn since applicants have amended the claims to include the esters.

The rejection under 35 USC 102 over XP 001055984 Mellor et al has been withdrawn since applicants argue that they have provisoed it out in the claims, hence the rejection has been changed to a 103 since having a butyl as a R group would make a lower alkyl as an R an obvious variant of the taught compounds.

The rejection under 35 USC 102(e) over WO01/10429 [the Zitzmann application] has been withdrawn however it has been changed to a 103 since the reference discloses the nonyl and applicants have provisoed out the compound, it still teaches the R being an alkyl group.

The 103 rejection as given above still stands. Applicants claims are not drawn to a method of treating but to compounds and compositions. Hence the arguments that their compounds

are specific and selective inhibitors of glucosylceramide synthase is not found to be convincing.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
